Professional Summary

Flutter Developer with 1.5+ years of hands-on experience building and shipping cross-platform Android and iOS applications using Flutter and Dart. Skilled in REST API integration, Firebase, state management (Provider, BLoC, GetX), and clean, maintainable architecture (MVVM, MVC, Clean Architecture). Published an AI-powered app on Google Play and currently pursuing an MCA with AI/ML specialization. Seeking Flutter Developer, Mobile App Developer, or entry-level SDE roles with strong growth opportunities.

Technical Skills

Language & Framework: Dart, Flutter (Android & iOS cross-platform development)
State Management: Provider, BLoC, GetX
Architecture: MVVM, MVC, Clean Architecture
Backend & Data: REST APIs, Firebase Authentication, Cloud Firestore, Appwrite, SharedPreferences
Tools: Git, GitHub, Android Studio, VS Code, Postman

AI Tools

Claude AI: code generation, debugging, refactoring, and documentation
Google Antigravity: AI-assisted coding and agent-driven development
ChatGPT: coding assistance, debugging, and technical problem-solving
Google Gemini: research and coding assistance

Professional Experience

Flutter Developer Sep 2025 – Present
Shlash Star *[City / Remote – fill in]*

- Develop Flutter applications end to end, from UI implementation to REST API integration.
- Built an AI-powered plumbing assistant app with real-time query support via REST API and AI chat integration.
- Implemented cruise booking features, including available and pending booking tracking.
- Managed application state with Provider and optimized app performance and UI responsiveness.

Flutter Developer Intern Sep 2024 – May 2025
Fuerte Developers *Rajkot, Gujarat*

- Developed cross-platform mobile applications using Flutter and Dart.
- Integrated Firebase Authentication and Cloud Firestore for user login and real-time data storage.
- Built reusable UI components and integrated REST APIs to fetch and display application data.

Projects

PlumbWise AI – AI-Powered Plumbing Assistant Google Play
Flutter, Dart, REST APIs, AI API Integration

- Developed and published a Flutter app that helps users diagnose common plumbing issues using AI-generated responses.
- Integrated AI APIs and REST services to deliver real-time assistance, with responsive and user-friendly interfaces.

Shipment Management App [GitHub link – optional]
Flutter, Dart, BLoC, REST APIs

- Built a shipment management app from scratch with responsive UI for shipment creation, tracking, and management.
- Implemented BLoC state management and REST API integration to fetch and update shipment data in a reusable structure.

BlaBlaCar Clone App [GitHub link – optional]
Flutter, Dart, Provider

- Developed a ride-sharing app with ride booking, filtering, and responsive UI for ride listings and booking flows.
- Used Provider for state management across screens to handle ride data and user actions.

Education

Master of Computer Applications (MCA), AI/ML Specialization Apr 2026 – Present
Parul University *Pursuing*

Bachelor of Computer Applications (BCA) 2021 – 2024
Christ College, Rajkot

Certifications

Flutter Developer Internship – Fuerte Developers
